

The WE CAN Coalition is a county-wide collaboration to collectively address the intersecting needs of children, families and communities touched by abuse and neglect. We consist of more than 100 different organizations, programs, and departments, both public and private, that work together to serve these populations in a comprehensive manner. We recognize that child maltreatment does not happen in a vacuum. Prevention, diagnosis and treatment must all be addressed in order to have the biggest impact and must link to children, their families and the community as a whole.

Our Mission

To prevent, diagnose, and treat child abuse and neglect and to strengthen the health and well-being of children, families and communities.

Our Vision

All Orange County children are raised in a safe and nurturing environment.

We Include

The Coalition meets as a whole regularly, but most of our work is done through 7 task forces that focus on a way to serve each of three critical populations.

		POPULATION
